CUSTOMER COST SAVINGS:

After a year of LE 4025 usage, the company yielded a savings of PHP 84,000 from the high cost of equipment parts. That is, PHP 21,000 of savings per CANCO seamers of 04 units – covering replacement costs of 04 sets of Seaming Roll Pins and Magnolia Bushings. Because of longer equipment life and no more costly down time, the Seamers operated efficiently which resulted in more profits for the company.

OTHER LE PRODUCTS USED:

The plant also uses LE 6404 MONOLEC R & O Compressor / Turbine Oil in their 02 units 30 horsepower Ingersoll Rand (I.R.) Piston Type Compressors.

I would like to thank Engr. Mar Gabinete, Maintenance Manager, for his unending and untiring support and friendship.
